Subject: FW: Oregon HUA Potential Range Analysis
Attachments: Oregon HUA Potential Range.pdf

Dru,
Thank you for taking the attached PDF to your 11am meeting with Claire.
Cheers,
Joe

Subject: Oregon HUA Potential Range Analysis

Claire,

Per your discussions regarding the Oregon temperature standard with David, please see the attached PDF summarizing our analysis of the following:

- (1) Current Scenario: HUA Allocations With Heat Attenuation (Ambient River Temperature at NTP or BBC),
- (2) Worst-Case Scenario: HUA Allocations Without Heat Attenuation (Ambient River Temperature Not Considered), and
- (3) Alternative Scenario: HUA Allocations Using Biologically-Based Numeric (Ambient River Temperature at or below BBC). I hope you'll find this helpful for your discussions.

Regards,

Joe
